DETAILED ACTION

Claim Objections

1. Claims 1 and 5 are objected to because of the following informalities: Recitation of “said sutures” lacks sufficient antecedent basis. Appropriate correction is required.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

- a. The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 1-8 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter, which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. The specification does not enable one skilled in the art to make and/or use the invention to perform the method steps as claimed, i.e. the statement in the specification of “[a]n extraoral devise can be similarly be prepared for reshaping cranial bones by inducing osteogenesis as cranial sutures” (page 16) is not adequate disclosure. The specification describes the device for realigning teeth, how to use the device, and method of realigning teeth, but it does not describe the claimed invention other than repeating the claimed language.

Response to Amendment

3. The amendment filed April 28, 2005, entered on May 26, 2005, is objected to under 35 U.S.C. 132(a) because it introduces new matter into the disclosure. 35 U.S.C. 132(a) states that no amendment shall introduce new matter into the disclosure of the invention. The added material which is not supported by the original disclosure is as follows: the incorporation by

reference statement added is not effective because no new matter can be added to an application after its filing date. Applicant is required to cancel the new matter in the reply to this Office Action.

Response to Arguments

4. Applicant's arguments filed April 28, 2005 have been fully considered but they are not persuasive. Because of the improper incorporation by reference to the specification, the rejection under 35 USC 112 first paragraph is not withdrawn.
